

WORKPLACE FIRST AID

# Setting the standard.

\* Excludes product and packaging.

## aura<sup>3</sup>: the right kit for your workplace.

### WORKPLACE FIRST AID KITS

Our New Aura3 Workplace kits are better for the workplace and better for the planet, providing quick and easy access to first aid. Aura3 represents a first for the first aid industry, the first 100% recycled first aid kit box on the market.

The fresh new box design feature colour coded, embossed, and screen-printed lids. The new graphics stand out from a distance, enabling quick identification in an emergency, especially in a busy workplace. Compact and convenient, the integral bracket allows easy placement and fixing.

To meet your duty as a person conducting a business or undertaking (PCBU) in providing access to first aid equipment, facilities and trained first aiders you must consider all relevant factors, including the following:

- the nature of the work being carried out at the workplace
- the nature of the hazards at the workplace
- the size and location of the workplace, and
- the number and composition of the workers and other persons at the workplace.

Integral bracket

Single clip

Embossed cross

Easy identification

Tamper seal

Laser etching

Better for the workplace, better for the planet.

Certain work environments have greater risk of injury and illness due to the nature of work being carried out and the nature of the hazards in the workplace.

In relation to the size and location of the workplace, you should take into account:

- the distance between different work areas, and
- the response times for emergency services.

## FIRST AID MANAGEMENT PROCESS

- 1 Identify** - Potential causes of workplace injury and illness
- 2 Assess** - Risk of workplace injury or illness
- 3 What first aid is required**  
First aiders | First aid Kits and facilities | Procedures

Aura 3 First Aid Kits are a basic first aid kit for Office, Buildings and facilities designed to current first aid and Resuscitation guidelines.

### SMALL KIT USAGE GUIDELINES

- LOW RISK: 1 kit for less than 15 employees  
HIGH RISK: 1 kit for less than 5 employees

### MEDIUM KIT USAGE GUIDELINES

- LOW RISK: 1 kit per 25 employees  
HIGH RISK: 1 kit per 10 employees

### LARGE KIT USAGE GUIDELINES

- LOW RISK: 1 kit per 50 employees  
HIGH RISK: 1 kit per 20 employees

The actual number and size of kits provided in the workplace should be based on all the factors included in your risk assessment.

Ice Pack, Instant	1	1	2	-
Plasters, Washproof, Assorted	40	60	80	10
Resuscitation Face Shield <sup>2</sup>	1	1	2	1
Shears	1	1	1	1
Splinter Probes, Disposable	5	5	10	-
Tape, Microporous	1	2	3	-
Wipes	10	20	40	10

<sup>1</sup> The quantities in the travel and motoring first aid kit and personal issue first aid kit are appropriate for one person only. <sup>2</sup> The shield is used to protect a first-aider from infection from a casualty during mouth-to-mouth resuscitation. <sup>3</sup> A Burn Dressing cools the burn injury without any prior treatment with water or any other medium. The dressing does not dry out within one hour of application.

in Xtra Small Green Aura3 Box

3012 TRAVEL & MOTORING KIT  
in Medium Green Aura3 Box

A3014 TRAVEL & MOTORING KIT  
in Stockholm Bag

## ADDITIONAL WORKPLACE FIRST AID KITS

Additional modules or equipment should be added based on specific risks identified in your workplace risk assessment.

Workers in factories, motor vehicle workshops and forestry operations are at greater risk of injury requiring immediate medical treatment than workers in offices or libraries. These workplaces will therefore require different first aid arrangements.
